DMA INSTRUCTION 8011.2

SUBJECT: Defense Mapping Agency Support to the Defense Intelligence Agency

REF: a. DOD Directive 5105.40, 1 January 1972, subject: Defense Mapping Agency (DMA).
b. DOD Directive 5105.21, 1 August 1961, subject: Defense Intelligence Agency
c. Secretary of Defense memorandum, 1 January 1972, subject: DOD Organizational Changes - Mapping, Charting, and Geodesy

1. Purpose. This instruction establishes the relationships and responsibilities for the Defense Mapping Agency (DMA) support to the Defense Intelligence Agency (DIA).

2. Scope. This instruction applies to all DMA components.

3. General.

a. Basis for relationships between the two agencies is contained in reference c.

b. Separate Memoranda of Understanding will be prepared as appropriate to satisfy individual functional responsibilities.

c. In general, mapping, charting, and geodesy (MC&G) and intelligence activities which are directly derived from functional responsibilities of references a and b will be provided by either agency on a non-reimbursable basis.

4. Responsibilities.

a. The DMA will:

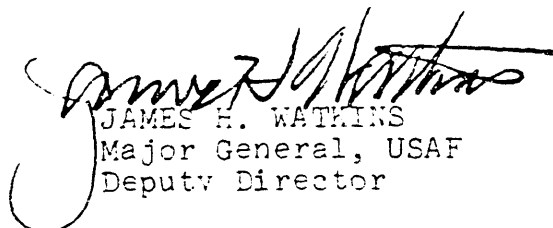

(1) Keep DIA appropriately informed as to current and prospective programs under the management responsibility of DMA.

DNAINST 6111.1

- (1) Provide DIA with DMA library support.
- (2) Furnish to DIA map and chart evaluations as required.
- (3) Perform cartographic and reproduction services for DIA on a reimbursable basis as mutually agreed.
- (4) Establish requirements for intelligence collection support and levy them on DIA for fulfillment.
- (5) Provide cartographic aerial photography, obtained by DMA, to DIA. Provide duplicate negatives to DIA as requested when the original DIA film is being utilized by DMA.
- (6) Provide to DIA terrain data and other source materials collected for M&G activities, ensuring that such data is compatible with DIA needs for intelligence production.
- (7) Use DIA current and prospective intelligence programs in areas relating to M&G.
- (8) Obtain from DIA biographical and organizational intelligence support as requested.
- (9) Obtain the DIA requirements for DMA products or services.

5. Procedures.

- a. Requirements for services from the DOD M&G libraries will be conducted at the action officer level.
- b. On an annual basis, DMA will obtain from DIA an estimate of the cartographic and reproduction work required in support of intelligence.
- c. DMA will provide to DIA program information for those areas of concern to DIA on an annual basis in July or at other times during the year as requested by DIA.
